

Assesment

from: HumanUP CIC

Price: £0.00

Date: 2018-11-14 18:15:37

Expiration Date: 0000-00-00 00:00:00

Description

You can check for free if your atlas needs tuning up. If your shoulders are different height, if your head or pelvis are not exactly in the middle, if your spine hasn't got a correct shape,... your health and wellness will benefit from atlas tune up. Before you decide for it, you can have a free assessment. We will look at your posture and also feel the positioning of your little bone just under the skull - atlas.
